PRODUCT DATA SHEET

Thermosaver Hood

	Document: PS-033 Product Data Sheet Hood		
	Version: 1.0	Document No: PS-033	Page: 2 of 3
Prepared by: Ketil Thorsen	Approved by: Ketil Thorsen		Date of approval: 22.12.2021

Hood for Thermosaver Hypothermic Rescue Bag in a water-repellent outer fabric, with a 9 mm insulation layer and an inner fabric in polyester just as the Thermosaver rescue bag itself. The hood is detachable, and attached to the rescue bag with velcro so that treatment can begin by placing the hood on a patient who cannot be immediately placed in the rescue bag (eg stuck in a car wreck). The hood has a tightening strap to make for easy fitting around the face. The hood is made of polyester and can be recycled.

	Hood
In Use L/W/H cm	33/20/3
Weight g	200
Colour	Highwiz yellow / Grey
Fabric	100% polyester
Outer skin fabric watercolumn	8000 mm
