

Product Datasheet - Thermosaver Hood

Manufacturer: Thermosaver AS

Product Description

Hood made for Thermosaver Hypothermic Rescue Bag.

- Water-repellent outer fabric, with a 9 mm insulation layer and an inner fabric in polyester just as the Thermosaver rescue bag itself.
- The hood is detachable, and attached to the rescue bag with velcro so that treatment can begin by placing the hood on a patient who cannot be immediately placed in the rescue bag (e.g. stuck in a car wreck).
- The hood has a tightening strap to make for easy fitting around the face. The hood is made of polyester and can be recycled.

NATO Stock Number (NSN): 6532251635296
